

# CONTRIBUTE TO CML RESEARCH BY PARTICIPATING IN A CML SURVEY!

Your Voice Matters. Help Shape the Future of CML Care

**CML Advocates Network is conducting a ground-breaking multi-country study and are looking for CML patients to take part in a 20-30-minute online survey to share their experiences and treatment preferences.**

## Are you eligible?

We are looking for participants who:

- ✓ Are 18+ years of age
- ✓ Have a diagnosis of Ph+ Chronic Phase-CML
- ✓ Reside in the USA, Canada, the UK, Germany, France, Italy, Spain, China or Japan
- ✓ Have been on a TKI for 90 days or more at their current line of treatment, or, are treatment naïve

Your participation will help us understand which characteristics of treatment matter most to people living with CML. A better understanding of what patients like and don't like about treatment could help to guide the development of new treatments and decisions.

**If you meet the eligibility criteria and would like to participate in this anonymous survey, we invite you to access it via the QR code, or through the following link: <https://survey.valorem.health/cmlan-ohc-screener>**

Thank you for your participation and contribution to CML research! For more information on the survey please contact Anastasia at [anastasia@cmladvocates.net](mailto:anastasia@cmladvocates.net)
